

## CARE & MAINTENANCE **INSTRUCTIONS**

# CARE & MAINTENANCE

BATHS, BASINS AND SHOWER TRAY

## BETTEGLAZE®

We recommend the following for the everyday care of your Bette product:

- Clean the surface with a soft, non-scratching cloth or sponge in conjunction with clear, warm water
- In the case of stubborn dirt use a mild bath or all-purpose cleaning agent.

Aggressive cleaning agents, such as drain cleaners or scouring agents, may damage the surface of the **BETTEGLAZE®**. You should therefore never use them. You will also obtain fresh cleanliness and optimum hygiene without aggressive cleaning agents

To ensure that the water and dirt-repellent property of **BETTEGLAZE®** is retained for a long time, we would ask you to observe the following notes on care:

- Please wipe the surface of your Bette product with a soft cloth after use.
- For subsequent care, rinse the surface with warm water and use soft cloths for cleaning.
- In the event of heavy dirt, use commercially available washing-up agents, a mild bath cleaner or non-scouring household cleaners.

The following should not be used to take care of the **BETTEGLAZE®** surface:

- Steel wool
- Scouring agents
- Highly alkaline cleaners
- Highly acidic cleaners
- Washing agent & washing machine dyes

**Made in  
Germany**

**Sustainable  
Quality**

**Glazed  
Titanium-Steel**
