

Wasser erleben

PRODUCT CATALOGUE 2018

THE PHILOSOPHY THAT GUIDES US COMES TO LIGHT IN EVERYTHING WE DO.

"EXPERIENCE WATER"

The HANSA brand encompasses the idea of designing water as well as fittings. An idea that hits home wherever there is water: across nations and borders and into the four corners of the earth. We are therefore striving to create the perfect unity of design and functionality. This is reflected in fittings that are as functional as they are fascinating thus making it both possible: To use and experience water.

ULTRA-HIGH QUALITY (OF LIFE)

HANSA supplies the best quality on the market: This is the commitment that we set ourselves – and the standard by which you measure us. We meet this standard with both passion and purpose: with products of exceptional quality that are long-lasting and reliable. And with services that support you and exceed your expectations. In this way, everything we do is focused on improving the quality that you value most: quality of life.

AS MODERN AS THEIR ASPIRATIONS

For us, being a modern brand means seeing the future as something that begins today. By thinking and acting in keeping with the times, we continuously develop new, innovative solutions. Our goal is to provide products time and again with a high practical and aesthetic value that always meet your needs better than before.

AWARD-WINNING PARTNERSHIP

A host of coveted awards prove how well we meet the highest of standards: In 2014, the readers of "markt intern", the business information service for German plumbing specialists, voted HANSA the "No. 1 specialist trade partner" for the 19th time in succession as part of the "performance report for sanitary fittings" that is awarded every two years. The high degree of trust placed in us by our partners is the driving force that makes us strong and will also secure the future success of the HANSA brand.

SIMPLE. PERFECTION.

Our products are an important part of your everyday life. For this reason, we go to great lengths to design them to be as user-friendly and straightforward as possible.

This is all the more significant, the more complex the tasks and solutions become. Ensuring maximum pleasure and minimum effort, combining exceptional utility and a simple concept: only then can we talk of perfection.

MINIMIZING THE ENVIRONMENTAL FOOTPRINT – MAXIMISING THE FEEL-GOOD FACTOR

We make sure that you can use and enjoy water every day at home with a good feeling – be it in the bath-room or in the kitchen. The latest technologies guarantee optimum drinking water hygiene and offer exceptional safety. Above all, however, we help you conserve water and energy. With environmentally-compatible products, we want to play our part in keeping the ecological foot-print as low as possible – and leaving only a positive impression.

WE TREASURE WHAT INSPIRES US.
INTRINSICALLY. **SUSTAINABLY.**
FOR MORE THAN 100 YEARS.

MORE THAN 100 YEARS OF SUCCESS

HANSA has been active in this field for more than 100 years and is one of the leading companies in the industry. Success over such a long period is no coincidence, but the result of commitment, experience and a strict policy of sustainable company development. A development that is now being systematically driven forward by the fusion of complementary expertise drawn from a strong group.

OUR DRIVING FORCE: INNOVATION

HANSA is one of the trendsetters in the industry. Modern materials, innovative technologies, progressive concepts for concealed and exposed products, new technical solutions that help to save water and energy: time and time again we have been the first to launch important innovations. HANSA holds numerous national and international patents. This is further proof of the sustainable force behind our company – for the past 100 years, today, and in the future.

RESPONSIBILITY AND RESPECT

HANSA only works with high-grade, durable materials, such as dezincification-resistant and corrosion-resistant brass MS 63, plastics with the German KTW certification for drinking water and the WATER SAFE Hitec functional core. All brass parts that come into contact with drinking water in our basin models do not have a nickel coating and those in our kitchen models have a particularly low lead content – to maintain existing drinking water quality.

SUSTAINABILITY AS A COMPANY PRINCIPLE

We have a special sense of responsibility for the precious resources with which we work on a daily basis. The basic principle of sustainability has always influenced our way of thinking and working, all our products and production processes. We do not focus on individual steps, but rather on cycles, and always have the entire life cycle of a product in mind. We place great importance on timeless design that does not slavishly follow the latest trends.

To reduce our energy consumption and to increase our energy efficiency as part of a continuous improvement process, we are introducing an energy management system in accordance with the DIN EN ISO 50001:2011 standard.

GREEN RESPONSIBILITY

The "Green Responsibility" label guarantees modern, ecologically sound HANSA technology, ensuring minimal usage of water and energy, and adherence to strict international guidelines.

OUR DESIGN
INSPIRATION IS FED
BY THE MOST
ABUNDANT SOURCE
IN THE WORLD:
WATER.

We work for people, not for prizes. The special quality, refined technology, and innovative designs of our fittings are made to delight and fascinate people every day.

Nevertheless, we consider it a major compliment when our fittings not only thrill our customers but also renowned professionals, international design experts, forums and committees.

Numerous design prizes tell us that our "experience water" philosophy is also the right one for the future and that our fittings are an impressive expression of what has inspired us from the beginning – the love of water.

There can be no stronger motivation to keep our ideas bubbling to the surface.

HANSALIGNA

WORTH A GREAT DEAL MORE THAN JUST A GLANCE: HANSALIGNA

With its **unmistakeable, clear design**, HANSALIGNA give all bathrooms a modern look. The stunning appearance is matched by its **technical sophistication**: Tried-and-tested HANSA technology guarantees optimum functionality, helps conserve resources, and turns your enjoyment of HANSALIGNA into a lasting pleasure.

HANSAVANTIS PIN

A TOUCH OF STYLE: HANSAVANTIS PIN

HANSAVANTIS PIN is a real eye-catcher with its slender pin operating lever. It is available in the roughly 20 mm higher STYLE XL version as well as with a slender, curved spout. Elegance can be interpreted in many different ways: An alternative to the pin lever is the ergonomic flat solid lever, a true pleasure for your hands in every sense of the word. Bring a touch of style to your bathroom!

HANSASTELA

STYLE ON A GRAND SCALE: HANSASTECLA

Although reinvented numerous times, it still remains true to itself. Like all basin variants, the innovative electronic fitting also exhibits the **typical design features** of the range – above all, the wide, rectangular spout. With its contrasting design vocabulary, HANSASTECLA has always **been particularly flexible** for combination with different washbasins.

HANSATWIST

THE BEST WAY TO CHOOSE COMFORT: HANSATWIST

HANSATWIST is a master of metamorphosis and one of the most versatile ranges in the HANSA product portfolio. The basin fitting alone is available in **two sizes** and with **two different control concepts**. Each version is also available with **two different lever variants**. This selection makes it particularly flexible: with HANSATWIST, you will always find the exact fitting to perfectly meet your personal **comfort requirements** while satisfying all structural conditions. The balanced HANSATWIST product range for shower and bath allows you to design the whole bathroom according to individual preferences.

HANSATWIST LOOP

COMPELLING DIVERSITY: HANSATWIST LOOP

Combining superior style and effortlessly harmonising opposites: Only people who have found their own style can achieve this. HANSATWIST LOOP is your fitting. As a contemporary interpretation of a HANSA classic, HANSATWIST LOOP builds bridges between traditional values and modern requirements, between attractive design, rich functionality and distinctive comfort.

HANSATWIST with a lever loop is not only visually striking, but is also particularly pleasant to touch. Offering you a distinctive advantage when it comes to ergonomics and ease of use. The slight forward tilt gives the body a dynamic feel and simultaneously facilitates the use of the draw-rod. HANSATWIST with a lever loop provides long-lasting pleasure, regardless of which generation you belong to.

HANSAPRADO

PARED BACK TO THE ESSENTIAL: HANSAPRADO

HANSAPRADO is a classic HANSA fitting – functional and with tried-and-tested technology. Its attractive, **high-quality design** fits in modern and in traditional bathroom environments. The **quality** meets the highest expectations: from the corrosion-resistant brass body to the high-quality chrome finish.

HANSAMEDICA PRADO

PEOPLE AT HEART: HANSAMEDICA PRADO

An emergency means no more rest: things move quickly, but first - don't forget to wash your hands! Like all HANSAFITtings, HANSAMEDICA washbasin fittings are of the utmost quality. Its material speaks for itself: the MS 63 brass alloy used by HANSA offers plenty of protection against corrosion. Furthermore, all of the MEDICA models have two things in common - they are economical with water and they have long, easily-to-use levers.

HANSAPOLO NEU

FOREVER YOUNG: HANSAPOLO NEU

Young, fresh, modern – this is HANSAPOLO. The design is characterised by the high-quality solid lever: an object that is as pleasing to the eye as it is to the touch. In everyday use, you can feel the **proven HANSA quality** with the simple classic control cartridge and the low-dezincification brass body. **“Solidity”** is the principle that HANSAPOLO stands for: convincing and consistent.
