Experience **DESIGN**

Stylish design has always been Villeroy & Boch's trademark. With a fine sense for trends, we design distinctive bathrooms that make life more beautiful and more comfortable.

Today, beautiful design in the bathroom goes without saying. It creates an atmospheric setting, invites you to relax and offers space for individual style. At Villeroy & Boch, we recognised the importance of design as a feel-good factor early on. For more than 100 years, we have been transforming functional washrooms into stylish living spaces – with timelessly modern forms and designs that shape the relevant trends in the bathroom. Designed by high-profile international designers and our own award-winning designers,

whether in purist lines or sensually elegant, each and every one of our bathroom collections has a distinctive face. With their successful composition of aesthetics and functionality, of sustainability and comfort, for many years they have delighted design juries from around the world. So why not give in to the inspiration of exquisite bathroom collections and first-class designs that perfectly reflect your style? Experience your very own personal feel-good moments – in your bathroom by Villeroy & Boch.

Discover **INNOVATION**

Day after day, you can experience the results of our research and development: with great attention to detail, our innovative products and solutions make every minute in the bathroom pure pleasure.

Much of what goes without saying in the bathroom is the result of our search for better solutions. With fresh ideas, state-of-the-art technology and all of our expertise, for decades we have succeeded in designing an ever-more comfortable bathroom. It starts with materials that are pleasant to the touch such as Quaryl®, and our innovative designs are far from the end of the story. From the dirt-resistant finish to the water-saving toilet flush, at Villeroy & Boch you will find a host of game-changing products that leave you feeling safe and carefree.

Still, expectations of comfort and functionality, of design and hygiene, are on the rise. And technology continues to evolve as well. That is why we are already working to make the bathroom even more beautiful and better for you. Today, we are pleased to present one of our latest developments: TitanCeram. A high-quality material that permits impressively delicate, strong bathroom ceramics – and thus a completely new language of design. Discover the numerous innovations Villeroy & Boch has to offer, and join us as we enter the future of the bathroom.

Villeroy & Boch

Enjoy QUALITY

Since 1748, the name Villeroy & Boch has been a byword for the utmost in quality and dependability. With precise craftsmanship, state-of-the-art technology and strict quality standards, we create products that, even many years later, function just as well as they did on the first day.

When it comes to the quality of our products, perfection is always the goal. We want you to feel at home in your Villeroy & Boch bathroom for many years to come. That's why you will find that we offer a variety of reliable solutions that all share one thing in common: first-class quality and a particularly long service life. We ensure this with all our experience, but also with new ideas, with constant research and strict quality testing. As a result, our products must pass more than 25 checks, from tests of raw materials through to delivery.

An effort that's worth it: after all, bathrooms are replaced just once every 20 years or so. And an expectation you can experience in every detail. It is evident in the careful workmanship of our products – and in their perfect functionality. You can recognise it in scratchproof and dirt-repellent ceramics, in silently closing drawers, and in many other special features that make your stay in the bathroom an absolute delight. With every product we make, you can rest assured of owning a piece of lasting value.

Thanks to our novel TitanCeram material, it is now possible for the first time to manufacture products with extremely thin walls for incomparable design creations. With Artis, for example, we have created a fine form, just 8mm thick, that lends the washbasins an especially delicate appearance.

Colours and forms are an expression of personality and a popular way to bring more style to modern interior design. With Artis, the Villeroy & Boch premium edition of the surface-mounted washbasins, we help you express your personal style: choose from 3 shades of white and 15 harmonious colours developed by designer Gesa Hansen and based on the seasonal colours in Paris. WHIRLPOOL SYSTEMS

Each of the three whirlpool systems is available with different comfort features

Air jets in the base of the bath

AIRPOOL

The air system for an invigorating massage. In the AirPool, air is injected into the bath through special jets and dispersed as fine bubbles. These air jets are located in the base and ensure a stimulating massage. The pipes to the base jets are blown dry after use.

Water jets in the sides of the bath

HYDROPOOL

The water system for targeted body massage. Water is extracted and pumped back into the bath through water jets. The HydroPool massage jet stimulates the muscles and local metabolism. Residual water is drained away.

Air jets in the base and water jets in the sides of the bath

COMBIPOOL

The combination of AirPool and HydroPool offers the best of both worlds: air jets in the base of the bath and water jets, depending on the model, in the back, at the sides and/or in the foot area. The jets can also be adjusted and used separately, for an all-round body massage that gently eases tensions and stimulates the circulation. The CombiPool is also used for hydrotherapy. Residual water is drained away and the base jets blown dry.

*Our most
robust
glaze*

Our new glaze, TitanGlaze, does not have to shimmer to shine: its modern matt look is extraordinarily beautiful and extremely durable. Thanks to ultra-pure, crystalline aluminium oxide, TitanGlaze provides the ceramics with a high-quality finish that is particularly scratch- and impact-resistant. And retains the unique look of your bathroom - to keep it looking as flawless as it did on the first day, for many years to come.

LASTINGLY BEAUTIFUL
The matt glaze, which is applied meticulously by hand, lends the ceramics elegance and individuality – and it's there for good, as our extensive diamond scratching and falling ball tests demonstrate in impressive style.

CERAMICPLUS

Less cleaning - more time to enjoy life

For almost 20 years, CeramicPlus, the dirt-repellent ceramic surface finish, has been helping millions of customers keep their bathrooms clean. The innovative finish causes water to form droplets on contact that simply flow off the surface, taking the dissolved dirt and limescale with them. And should any deposits remain, CeramicPlus is much easier to clean. Even dried limescale is easier to remove in an environmentally-friendly manner without the use of aggressive cleaning agents - a real advantage in the bathroom! Tested and confirmed by wfk - Institute for Applied Research.
